## Magazine Articles from the Past

### Disclaimer Notice

Below is a listing of various tech articles related to Sportsters from magazines that are no longer in publication.

Each page is being displayed in reduced picture form in an attempt to preserve the information that often gets lost when magazines go out of business.

The content in any of these articles has not been edited from it's original published version. Any information in these articles, mistakes or omissions are the sole responsibility of the respective owners.

**The excerpted information in the linked articles is posted as educational material with no intention of monetary gain.**

If any copyright holder of this material takes exception to the usage of their information herein, they are asked to contact the Sportsterpedia to discuss the issue.  
[Click Here](#) for contact information on the "Welcome" page of the Sportsterpedia.
