P&A #331

IDLER GEAR SHAFT PART NUMBER 25787-57

Due to declining sales and as part of Harley-Davidson's on-going effort to simplify inventories at both the dealer and factory level, the above mentioned part for 1957 to early '84 XL, XLH, XLCH, XLS, XLX. will no longer be offered.

In it's place we will be offering only the Idler Gear and Shaft Assembly Part Number 25776-57.

Thank you!
