2018 CALIFORNIA STREET TUNER SOFTWARE COMPATIBILITY DELAY

Purpose for Service Bulletin

To notify California dealers of a delay in Street Tuner software compatibility for the 2018 XL1200NS (Iron 1200) and XL1200XS (FORTY-EIGHT Special).

Summary and Parts Affected

41000008C – Screamin' Eagle® Pro Street Tuner (Software only)

All Screamin' Eagle calibrations for these models are approved for use in all 50 states. However, there has been a delay in the release of Pro Street Tuner software controls for California models. The calibrations should be accessible for California models by the end of May 2018.

NOTE

The Pro Street Tuner software checks for updates every time the user opens the application. Immediately upon release, the updated software is available for install on the user's computer following this check for updates.

Questions

Direct all questions to a Dealer Services Representative.
